at Bally's. That's when the Bridal team at Bellezza Salons had the privilege of helping Jackie to be the beautiful bride she was meant to be! The wedding was last fall, but crafting the look that Jackie had in mind began a few months before the big day. First, Jackie and Mother-of-the-Bride, Pat, met with Chet and me to discuss all of the Salon details such as the date, time, and loca-

tion of the ceremony and reception, how many people were in the wedding party and what time they needed to be ready, who else needed salon services, what refreshments, if any, would they like served at the salon, as well as the budget for hair and makeup. The Salon staff then began setting up the appointments.

• Chet, a stylist with many years of experience and countless Brides "under his belt", likes to have a few trial appointments for the Bride's hair and makeup. So we can achieve the same flawless look as during the trial appointments, pictures were taken for both our reference and the Bride's. Chet also completed a "face map" listing all foundation, blush, lip colors, etc. that were used. Chet and Jackie worked together making sure her look was exactly what she dreamed it would be. The Bride must have the confidence that the stylist knows her vision and Chet certainly did!

Jackie's wedding day finally arrived and the Salon was buzzing with excitement! As you can see in the photos, Jackie was the beautiful Bride she was meant to be and her attendants were so gorgeous too.

Jackie Purnell's bridal attendants enjoyed their experience at Bellezza Salons.
