Sure Storage Somers Point

Clutter Got You Down?

Many families look for creative ways to expand their living space. One area that is often overlooked is the garage. Garages are frequently used as overflow storage space for a variety of household items. Often, the garage becomes so cluttered that it is no longer usable for car storage.

Declutter Your Garage By Storing:

Outdoor Furniture & Cushions
Seasonal Sports Gear And Watercraft,
Lawnmowers, Gardening Supplies & Outdoor Planters.
Holiday Decorations

Combine work and play to clear clutter from the room and reward them with a space that suits their needs. Sure, you'll lose a place to park cars, but when was the last time you were able to fit them in anyway? Some ideas for a mini garage makeover:

Music Room - Soundproof the garage, roll in a piano, put in a drum set and a disco ball, and the neighborhood garage bands will be rockin'. Open the garage door and have a dance party in the driveway.

Game Room - a ping pong table and a basket ball net can instantly transform any room into a lounge and when you are done, folds up and out of the way.

Ultimate Woman/Man Cave - by day, it could function as a Zumba class, by night, Wii games or movie night. Whatever you do, decide as a family how you would like to use the room. Then do it!

JOSIE'S CORNER:
"This fall, take a day
to kick back, relax.
Make sure you spend
some time with the
kiddies and play."
